**Salary and Wages** – The increase of \$11.9 million or 2.5% is primarily attributed to funding for a wage increase of 4% effective June 30, 2008 applied to all labor organizations which have settled their 2005-08 labor agreements; and the Act 312 Arbitration Award for Police and Fire uniform personnel.

**Employee Benefits** – The overall decrease of \$4.4 million is due to decreased funding of \$2.4 million for sick leave for Police and Fire uniform personnel and active city employees; unemployment and workers compensation funding is decreased by \$1.2 million based upon prior year actual expenditures; and other miscellaneous benefits funding is decreased by \$.8 million based upon current year estimates.

**Professional and Contractual Services** – The 2008-09 Recommended Budget includes

an increase of \$4.4 million primarily consisting of increased funding of \$.9 million for General Services Department contractual security service rate increase for securing City Facilities; increased funding of \$.4 million for contractual building maintenance services at the Civic Center Department; increased funding of \$.7 million for Information Technology Department additional contractual services related to DHRMS HR Payroll Project; increased funding of \$.6 million for contractual auditing services related to Comprehensive Annual Financial Report (CAFR); and increased funding of \$1.7 million for other miscellaneous contractual services.

**Operating Supplies** – The 2008-09 Recommended Budget provides for an increase of \$2.3 million primarily consisting of increased funding of \$2.8 million for electricity purchases; \$2.5 million for fuel; \$.6

million for repairs and maintenance-air conditioning; and \$ .6 million for automotive tire purchases. Funding for automotive supplies was decreased by \$2.2 million and automotive tires decreased by \$1.0 million and was transferred to the contract-other miscellaneous account as part of inventory management of the General Services Department; contract services-other miscellaneous increased by \$1.7 million as a result of transferring funding from supplies-automotive and operating supplies accounts from DPW Stores and Fire Apparatus. Funding for fuel oil decreased by \$1.0 million due to electrical production efficiencies at the Public Lighting Department.

**Operating Services** – The major reason for the \$2.7 million increase is due to purchased services – other in Non Departmental for the GDRRA supplemental fee (\$5 million) and telecommunications for the Police Department (\$1.9 million). This is offset by a decrease of \$3.3 million for the Risk Management Fund

insurance premium.

**Capital Outlays** – This category decrease of \$527,297 is essentially due to a shift in funding for both Recreation Operations Administration major repair – buildings and GSD Building Maintenance repair/maintenance - bldg and grounds.

**Fixed Charges** – The net decrease of \$203,797 is primarily due to the decrease in interest payments for the Vehicle and Risk Management Funds offset by an increase in debt payments to retire the Fiscal Stabilization Fund.

**Other Expenses** – The overall reduction of \$93.2 million in this category is due to the reduction in prior year deficit of \$88.6 million and the elimination of the subsidy for the Solid Waste Fund (\$22 million). This was offset by an increase of \$15.4 million for bond sales for the Historical Museum.

P.A. 500 of 1998 provides for the reduction of income tax rates in the City of Detroit over a 10 year period (7/1/99-7/1/08) for residents from (3% to 2%) and for non-residents (from 1.5% to 1%). In December 2003, and every December there after, the City applied for and received from the State Board of Administration a suspension of its income tax rate reduction. This is permitted under PA 500 of 1998 if 3 of 4 conditions are met. The suspension remains in effect for 1 year, currently until July 1, 2008. In December 2008, the state law was revised to extend the City's current income tax rate suspension until calendar year end 2010.

The income tax rates currently in effect for residents are 2.5% (non-residents 1.25%). In conjunction with the resident/non-resident income tax rate reduction, the City has implemented a phase out of the corporate income tax over the same time frame. This tax rate is currently at 1.0%. Beginning with the FY 2006 budget the personal exemption amount was lowered from \$750 to \$600. This action is estimated to generate \$2.5 million in revenues.

**Property Tax** - The Recommended current year property tax collections for FY 2008-09 is \$6.9 million higher than the current adopted budget estimated collections. The following factors have the largest influence on this account:

industrial facilities and neighborhood enterprise zone are included. A decrease in the uncollectible property tax account (.07%), in addition to adjustments to the 2008-09 tax levy is expected to lower property tax collections.

- The recommended collection factor for FY 2007-08 is 95 based upon prior year's experience. Current year delinquent real property taxes are transferred to Wayne County for collection after March 1<sup>st</sup> of the fiscal year. The City receives payment in advance for the delinquent property transferred to Wayne County from the revolving fund.
